CHRISTIAN MILICEVIC

DEVELOPER & DEVSECOPS

CURRICULUM VITAE

PROFILE

I am a recent IT graduate of the Queensland University of Technology who is commencing a career in software development, programming and cyber security. I supported my university studies with casual employment, focusing on IT, warehousing and mechanics. I have a strong worth ethic and enjoy team-based projects, meeting with people from diverse backgrounds and experiences, and I thrive on challenges that involve multiple responsibilities.

EXPERIENCE

SUNCORP

Software Engineer Cybersecurity/DevSecOps – permanent full-time | Brisbane QLD | Nov 2021 – March 2022

Suncorp is an Australian based finance and banking company, that is one of Australia's biggest. It is based in Brisbane Queensland and is owned by the Queensland Government. They recently build a new office building in Queen Street to combined the whole team into one building. My responsibilities in this role include:

- Bug fixing and code clean up;
- Automating system platforms for teams to use;
- Solving system platform problems;
- Improving, integrating, maintain and securing any platform features;
- On call roster basis;
