Summary

Tertiary student graduating in November 2020 seeking work in software development/programming.

I am currently enrolled in an information technology dual award degree (bachelor and diploma) through the Queensland University of Technology. I have focused my degree on computer science (programming). I have experience in casual employment within the warehousing sector, the events industry and a mechanical environment. I enjoy working with others, meeting new people and I thrive on challenges that involve multiple responsibilities.

Key Skills

- Demonstrated ability to work as part of a team
- Demonstrated organisational skills and the ability to deal with multiple responsibilities at the same time, including problem solving
- Demonstrated ability to work effectively without supervision
- Demonstrated ability to work in a busy environment and to be self-motivated at quieter times
- Flexible and accommodating approach to work
- Respectful and polite manner with a focus on providing customers with a friendly and efficient service
- Good phone manner
- Good at adjusting to new environments and meeting new challenges
- Good at establishing relationships and maintaining long-term contacts
- Excellent skills in IT (see opposite) and the ability to assist others to improve their use of technology
- IT-specific skills include:
  - Game programming mathematics (Vector, Matrices, Coordinates, Trigonometry)
  - Types of Algorithms and Algorithm Efficiency
  - AI (A*, Greedy Search and NavMesh) and AR
  - User feedback and testing
  - Source control
  - Debugging
  - Efficient and effective code comments

Location
Western suburbs, Brisbane

Citizenship
Australian

Driver's Licence
Queensland Open Licence (manual)

Transport
Own vehicle

Hobbies/Interests
Car enthusiast
IT enthusiast
Fitness
